Omar Alfageeh

Milford, MA | 781-971-1399 | omaralfageeh04@gmail.com | Design Portfolio

EDUCATION

Emmanuel College Boston, MA **Bachelor of Arts in Communications** Fall 2026

WORK EXPERIENCE

UI/UX Designer **Karamah Collective** **Apr 2026 - Present**

Part-Time, Remote

- Lead UX design for Halal Finder, a geolocation tool that helps Muslims in Finland locate mosques, halal food establishments, and other community-essential resources.
- Translate community-specific user needs into intuitive map interactions, pin-based navigation patterns, and clear information hierarchy.
- Support redesign work on the organization's main website (karamahcollective.com), aligning visual identity and structure across products.

Social Media Content Manager **MyMetabolism** **Dec 2025 - Aug 2026**

Part-Time, Remote

- Develop and evaluate monthly content strategies, assessing each piece for quality, clarity, and audience alignment before publication.

Marketing & Operations Assistant **Boston Islamic Seminary** **Sep 2025 - Feb 2026**

Part-Time, Chelsea, MA (Hybrid)

- Created and reviewed branded digital content including graphics, photography, and video, ensuring consistency with organizational voice and quality standards.

UX Writer/Content Writer Intern **One More Multiverse** **Mar 2023 - Apr 2024**

Part-Time, Remote

- Wrote in-product UX copy for a browser-based virtual tabletop platform, covering onboarding flows, tooltips, empty states, and error messaging across character creation, world-building, and game master tools.

PROJECTS

Interncept **Product Design & Full-Stack Build** **May 2026 - Present**

interncept.com

- Designed and shipped a live US internship aggregator that scrapes five job boards, deduplicates the same role across platforms, and consolidates each into a single listing linking out to every source.
- Authored the full product specification and directed an AI-assisted build across Next.js, Supabase, and FastAPI, from schema design through design QA to launch.

Wajba **Mobile App Design & Design System** **Jun 2025 - Jul 2025**

- Ran a 14-response survey and 3 user interviews to identify needs, behaviors, and pain points around finding trustworthy halal restaurants.
- Translated research findings into feature set, information architecture, UX flow, and hi-fi screens; fully built in Figma.

Nukta **Website Design & Design System** **Sep 2025 - Nov 2025**

- Built the brand identity and a three-tier design system (brand, alias, and mapped variables) with a scalable component library for Nukta Magazine.
- Designed and prototyped the full website in Figma, including sitemap, user flows, and responsive layouts.

Looksmaxxing & Inceldom: An Investigation **Qualitative Research** **Jan 2025 - Apr 2026**

Project Materials

- Conducted discourse analysis of 34 texts across incel forums and TikTok, plus 32,047 chat messages, applying a six-code conceptual coding framework to identify shared ideological patterns.
- Synthesized findings into a full research paper integrating literature review, textual analysis, and audience analysis.

FREELANCE AI TRAINING EXPERIENCE

Robotics Data Quality Auditor **Micro1** **Jul 2026 - Sep 2026**

Contract, Remote

- Audited teleoperated dual-arm robot manipulation footage frame by frame, tagging failed grasps, drops, excessive struggle, idleness, and instruction or setup deviations against a client rubric to produce training data for robotic manipulation models.
- Resolved ambiguous edge cases by applying a hierarchy of onboarding guidelines, client FAQ rulings, and consensus case libraries, placing event boundaries within a strict 30-frame tolerance and delivering evidence-backed, audit-ready labels.

Visual Designer **Mercor** **Aug 2026 - Sep 2026**

Contract, Remote

- Answered AI-generated multiple-choice questions about visual designs from first principles, drawing on layout, typography, color, and composition expertise to set reference answers.
- Audited each question for clarity, validity, and fidelity to the original professional designer's observations, and assigned structured quality ratings.

UI/UX Designer **Micro1** **Apr 2026 - Jul 2026**

Contract, Remote

- Designed realistic UI/UX tasks spanning user flows, wireframes, and high-fidelity interfaces to evaluate model performance on end-to-end product design.
- Critiqued model-generated designs against usability heuristics, accessibility standards, and visual hierarchy, with structured written feedback.

UI/UX Designer **Mercor** **Mar 2026 - Jul 2026**

Contract, Remote

- Wrote prompts simulating real Figma and Adobe Creative Suite workflows to test model performance on software-specific design tasks.
- Rated model outputs on design reasoning and technical accuracy within each tool, with written justifications.

Penetration Tester **Micro1** **Oct 2025 - Apr 2026**

Contract, Remote

- Built simulated penetration testing scenarios to evaluate model performance on vulnerability identification, exploit reasoning, and remediation guidance.
- Rated model responses for technical accuracy and adherence to industry-standard security methodology, with written justifications.

AI Red Team Tester **Alignerr** **Apr 2025 - Jul 2025**

Contract, Remote

- Ran adversarial testing on frontier models, writing targeted prompts to surface harmful, unsafe, or policy-violating outputs across sensitive and edge-case scenarios.
- Documented each vulnerability with a reproducible test case and severity assessment.

Search Quality Evaluator **Alignerr** **Dec 2024 - Feb 2025**

Contract, Remote

- Rated AI-generated search results for relevance, accuracy, and helpfulness against structured quality guidelines across diverse query types and intents.
- Flagged recurring patterns in low-quality or misleading results and documented them with structured feedback.

Generalist (QA) **Outlier** **Jun 2024 - Oct 2024**

Contract, Remote

- Evaluated model responses to everyday user queries, auditing both structured JSON outputs and the matching user-facing responses against category-specific quality criteria.
- Assigned category-level and overall quality ratings with detailed written justifications.

SKILLS

Tools

Figma (Design, Prototyping, FigJam) · Claude (code & design) · Google Antigravity · AI-assisted design workflows & prompt engineering · Adobe Illustrator · Adobe Photoshop · Framer · Google Sheets

UI/UX

End-to-end UX & product design · High-fidelity prototyping & interaction design · Information architecture & user flows · Design system architecture · AI product design (designing for LLM-powered interfaces) · Qualitative user research & usability evaluation

AI Evaluation

Model output evaluation · Adversarial prompting & red teaming · Search quality rating · JSON output auditing · Task & prompt writing · Structured evaluation & analytical writing

Graphic Design

Brand identity & visual systems · Social media graphics & infographics · Editorial & layout design · Copywriting & content strategy
